

Waste legislation Logistic authorisation

Since the 1st January 2002 are all kinds of electronical used devices (also computer hard disks) classified as waste requiring special supervision (AVV 160213*).

Through this categorisation in the association with electronical used devices are verifications and authorisations for the transport of the goods and devices necessary.

The *recycle it* GmbH has all the essential authorisations therefore. Concerning to this we are also allowed to transport the hackled hard disk material after the destruction.

p.s.: You will also get the appropriate verifications concerning to § 42 KrW-/AbfG for the operated register.

In that case we also provide legal certainty for our customer.
